Dear Sirs,

We would like to take the opportunity to present to you an offer of 80 beds hospital fully equipped with second-hand german instruments proven by the German authority.

The hospital offered below was in operation until 30.08.1999, i.e., all devices and items of equipment are neither too old to be used nor defective but are maintained to mandatory German rules and inspected (regular TÜV inspections, etc.).

We have to emphasis, that we only sell the hospital as a complete unit and for one price. We don't split the items and sell them separately.

If you need any more details, please do not hesitate to contact us.

Best regards

Iraq Rebuilding Office-Denmark

Offer of complete second-hand hospital equipment:

The hospital contains the following departments with equipment to common German standard:

- Surgery with 2 operation theaters
- Internal department with endoscopy
